Capital gains, dividends, interests and any other income from foreign securities held by the Fund may be subject to tax imposed by the country of origin concerned and such taxes will not be recoverable by the Fund or by investors under Maltese domestic tax law.

d. What is the tax position of an investor receiving a dividend from a Fund?

The tax treatment of dividends depends on the income tax status of the particular investor and on the Fund's income taxed accounts out of which the dividends are distributed as set out below:

- The distribution of dividends paid from Malta source taxed profits, Malta source profits which are exempt from tax up to the level of the ultimate shareholder, or profits received by the Company from the foreign income account of another Maltese company should not be subject to further tax in the hands of the shareholders. In the case of distributions from the Company's final tax account (if any), the shareholders should not be subject to further tax on such dividend but should not be entitled to claim a credit or refund of any tax directly or indirectly paid on such profits.
- The distribution of foreign source profits allocated to the Untaxed Account or distributions of any Malta source profits which are not subject to tax and which are allocated to the Untaxed Account attracts 15% withholding tax in the case of individual Maltese resident investors. Depending on personal circumstances, the investor may claim a credit of the 15% withholding tax. b. Investituri

- Qligħ kapitali miġbur minn residenti Maltin muwiex suġġett għat-taxxa f'Malta sakemm il-Fond jibqa' kwotat fil-Borża ta' Malta u jibqa' klassifikat bħala Fond preskrift.
- Qligħ kapitali miġbur minn investituri li mhumiex residenti f'Malta muwiex suġġett għat-taxxa f'Malta dment li jiġu osservati ġerti kundizzjonijiet.

c. X'taxxa hemm fuq id-dħul minn titoli barranin li jkollu I-Fond?

Qligħ kapitali, dividends, imghax u kull dħul iehor minn titoli barranin li jkollu I-Fond jistgħu jkunu suġġetti għat-taxxa imposta mill-pajjiż minn fejn ikunu nħargu, u din it-taxxa ma tinġabarx lura mill-Fond jew mill-investituri skont il-liġi tat-taxxa nazzjonali ta' Malta.

d. X'inhi l-pożizzjoni tat-taxxa għall-investitur li jirċievi dividend minn Fond?

Il-mod if tinħad dem it-taxxa fuq id-dividends jiddependi miċ-ċirkostanzi partikulari tat-taxxa fuq id-dħul ta' kull investituri u fuq l-income taxed accounts tal-Fond li minnhom jitħallsu d-dividends kif ġej:

- It-tqassim tad-dividends imħallsa minn Malta source taxed profits, Malta source profits li huma eżentati mit-taxxa sal-livell tal-azzjonist aħħar, jew qligħ li l-Kumpanija tirċievi minn kont ta' dħul barrani ta' kumpanija Maltija oħra m'għandux ikun suġġett għal iż-żejjed taxxa f'idejn l-azzjonisti. Fil-każ ta' tqassim mill-final tax account tal-Kumpanija (jekk ikun hemm), l-azzjonisti m'għandhomx ikunu suġġetti għal iż-żejjed taxxa fuq dawn id-dividends iżda m'għandhomx ikunu intitolati li jieħdu kreditu jew rifużjoni ta' xi taxxa mħallsa direttament jew indirettament fuq dawn il-profti.
- It-tqassim ta' foreign source profits allokati għall-Untaxed Account jew it-tqassim ta' xi Malta source profits li mhumiex suġġetti għat-taxxa u li huma allokati għall-Untaxed Account jitlob taxxa minn ras il-ghajnej ta' 15% fil-każ ta' investituri individwali residenti f'Malta. L-investituri jista' jitlob kreditu tal-15% taxxa, skont iċ-ċirkostanzi personali tiegħi. It-tqassim ta' dan il-qligħ muwiex suġġett għat-taxxa minn ras il-ghajnej għal min muwiex residenti f'Malta (dment li jiġu osservati ġerti kundizzjonijiet) u għal kumpaniji residenti f'Malta.

6. X'inhuma r-riskji?

Investment fi skemi ta' investment kollettiv għandu jitqies bħala investiment għal żmien medju jew fit-tul.

Il-limitazzjonijiet li joħorgu mid-daqs u min-nuqqas ta' likwidità ta' wħud mis-swieq fejn jinvesti dan il-Fond, inkluż is-suq Malti, jista' joħloq riskji għall-investituri għax il-maniżżej jista' jdum ma jbiegħ l-assi sabiex jaqdi l-obbligazzjonijet li jżomm il-likwidità meħtieġa għall-Fond.

6. What are the risk factors?

Investment in collective investment schemes should be regarded as a medium to long term investment.

The limitations arising from the size and illiquidity of some of the markets in which the Funds may invest, including the Maltese capital market, may create potential risks for investors in that the manager may sometimes experience delays in liquidating assets in order to maintain the liquidity requirements of the Fund.

The types of securities available on such markets may be limited, often giving little choice in terms of yield, maturities, and names of issuers of securities. Furthermore, the presence of credit institutions on such markets may also be limited. This may lead to the exposure to a particular security, sector, issuer, obligor or credit institution to be higher than would be the case in more diversified capital markets.

These investments are subject to normal market fluctuations and to the risks inherent in all investments, including the risk of exchange rate fluctuations which may affect the value of the investment in terms of the base currency of a Fund or of the reference currency of the investor.

When the Fund invests in other collective investment schemes and/or Exchange Traded Funds, it will be subject to the same risk factors as the underlying assets in which these schemes and Funds invest.

Please refer to the Prospectus of the Fund for a more detailed description of the risk factors.

Before deciding on an investment, you are advised to obtain and read a copy of the Prospectus of the Fund.
