

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

International Bond Fund

a sub-fund of HSBC Malta Funds SICAV p.l.c. (the "UCITS");
managed by HSBC Global Asset Management (Malta) Ltd.

Class:Inc (GBP)
ISIN:MT7000001962

Objectives and Investment Policy

- The International Bond Fund aims to maximise returns by, in the most part, investing in a diversified portfolio of International Debt Securities.
- The Fund will invest most of its assets in debt securities issued by Supranational Organisations, international governments, quasi-governments, agencies and corporates.
- The Fund may also invest in, among other things, Money-Market Instruments, Collective Investment Schemes and deposits with banks.
- The Fund may invest in developed, emerging and frontier markets and is not expected to have any particular geographical focus.
- The Fund may also hold positions in non-investment grade rated securities or unrated securities.
- The Fund is actively managed by experienced fund managers combining HSBC's international expertise with its local knowledge of the Maltese market.
- The Fund is daily dealing and offers both an accumulator class (income is reinvested) and an income class (income is distributed as dividends) of shares.
- The base currency of the Fund is the Euro, but investors may also invest in a British Sterling denominated share class.
- The reference currency of the Fund is EUR. The reference currency of this share class is GBP.
- The Fund is actively managed and is not constrained by a benchmark.
- Income is distributed.
- You may sell your investment on most working days.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.

Risk and Reward Profile

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

Why is this Fund in this specific category?

This Fund is classified in category 4 because its price or simulated data has shown medium fluctuations historically.

Material risks not fully captured by the Risk and Reward Indicator:

- **Callable Bond Risk** Any unexpected behaviour in interest rates could negatively impact the performance of callable debt securities (securities whose issuers have the right to pay off the security's principal before the maturity date).
- **Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.
- **Credit Risk** A bond or money market security could lose value if the issuer's financial health deteriorates.
- **Default Risk** The issuers of certain bonds could become unwilling or unable to make payments on their bonds.
- **Derivatives Risk** Derivatives can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
- **Emerging Markets Risk** Emerging markets are less established, and often more volatile, than developed markets and involve higher risks, particularly market, liquidity and currency risks.
- **Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- **Interest Rate Risk** When interest rates rise, bond values generally fall. This risk is generally greater the longer the maturity of a bond investment and the higher its credit quality.
- **Investment Leverage Risk** Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- **Liquidity Risk** Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors.
- **Operational Risk** Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.

Charges

The charges you pay are used to pay the running costs of the Fund, including the marketing and distribution costs. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest

Entry charge	2.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	0.92%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

- The entry and exit charges shown are the maximum that may be charged. In some cases you may pay less. You can obtain the actual charges from your financial adviser.
- There is a fee of £9.00 on any exchanges of shares between an accumulator and an income class within the same Fund.
- The ongoing charges figure is based on last year's expenses for the year ending 31/03/2022. Charges may vary from year to year.

Further information on Charges can be found in the "Charges and Expenses" section of the Fund's Prospectus.

Past Performance

- Past performance is not a guide to future performance; the value of your investment and any income from it can go down as well as up.
- Performance returns are based on the net asset value with distributable income reinvested. Past performance takes account of all ongoing charges but not entry, exit or conversion charges.
- The past performance of this share class is calculated in GBP.
- The Fund was launched on 26 March 2002.

Segregated liability

HSBC MALTA FUNDS SICAV p.l.c. is an open-ended collective investment scheme organised as a multi-fund public limited liability company with variable share capital with segregated liability between sub-funds under Maltese law. This means that the holdings of one sub-fund are kept separate from the holdings of the other sub-funds and your investment in the Fund cannot be used to pay the liabilities of any other sub-fund.

Investors should, however, be aware that in the event a claim is made against the Company, if the assets attributable to a Sub-Fund in respect of which the claim is made are insufficient to cover such claim, then the creditor may nonetheless be allowed by non-Maltese courts to have recourse to the assets attributable to other Sub-Funds if such non-Maltese courts refuse to apply the protection afforded to Shareholders under Maltese law.

HSBC MALTA FUNDS SICAV p.l.c. is licensed by the Malta Financial Services Authority in terms of the Investment Services Act (Chapter 370, Laws of Malta). The Company qualifies as a 'Maltese UCITS' in terms of the Investment Services Act (Marketing of UCITS) Regulations (S.L. 370.18, Laws of Malta).
